Welcome Message

I am delighted to welcome you to KSP2024 as the Director General of the Korean Society of Pathologists (KSP).

Since its establishment in 1946, the KSP has been at the forefront of advancing medical knowledge and fostering academic excellence in our field. As we gather here for the 76th annual meeting, I am thrilled to announce that this year marks a significant milestone for us – the inaugural International Congress of KSP conducted in English.

With over 1,200 esteemed members, the KSP stands as a beacon of excellence in the medical community. Our commitment to innovation and collaboration has earned us numerous accolades from the Korean Academy of Medical Sciences, reaffirming our position as a leader in our field. Now, we hope that this year's international congress will serve as an opportunity for the KSP to take another leap forward.

I extend a warm invitation to you to join us in Seoul, and to enjoy the heart of the Korean Wave, including K-pop and K-dramas, the late autumn atmosphere of Seoul, and the intellectual exchange at KSP2024.

Thank you, and I eagerly await meeting each of you in Seoul.

Hye Seung Han
Director General of KSP
